## Course Overview Cybersecurity

## ACMF Security & Risk Consulting

# Cyber & Physical Security Awareness 2019

CyPhy Security Awareness 2019 is a new integrated security programme, designed to fill the gaps commonly left by traditional cybersecurity training. IT Security, although critical, can only protect a business so far on its own. Physical and social engineering threats pose an equal if not greater risk to a business than plain hacking or phishing attempts.

- Your employees are your most valuable asset.
- Your Employees are your biggest security risk.
- Your employees can be your best defence.

## Course Objectives

ACMF CyPhy Security Awareness is a half day course, which aims to enable participants to understand and contribute to the security of their business, developing a company wide understanding of:

- Cyber & Physical Threats both inside and outside the business
- Current methods used by criminals to compromise security
- Telltale signs of security attacks and breaches
- Social engineering techniques used by criminals
- ACMF SOPs for a secure business
- ACMF SOPs for security breaches
- ACMF Tools to identify Business Security Risk

## Target audience

- Business Owners
- Administration/Finance Staff
- Compliance managers
- Privacy officers
- IT managers
- Risk managers
- Security managers

## Course date and location

This half day course will be held on 26th March 2019 in Kuala Lumpur,

- Latest Threats & Techniques used for Cyber and Physical Breaches
- ACMF Security & Risk's Total solution for comprehensive protection
- ACMF Gap Identification Tools
- ACMF Security Update Subscription

Attendees: Max 25 per session

Duration: ½ day (4 hours) per session

Updated: Quarterly

Included:

## Free 1/2 Day Security Clinic

Get advice and discuss your security issues in this free additional break-out session after the training.
